

Our goal at All Pride Pavement services is to provide our customers with regular property inspections and properly engineered remedies to ensure that the proper maintenance and repairs are accomplished.

Our services include:

Striping

New surfaces

Patching

Whether your needs are large or small, All Pride will take a proactive stance in making sure your needs are met.

You'll have a lot to be proud of.

8228 S. 206th St.
Kent, WA 98032

The Dirty Facts

Your parking lot is your business's front lawn.

Like it or not, your customer forms an impression of your business before even entering your building.

Trash and excess debris not only discourage patrons from approaching, but can drastically decrease the life of the pavement itself. Sand and dirt cause erosion of the pavement, which in turn leads to cracking, fading and potholes.

A good pavement power sweeping program will not only cosmetically improve your lot, it will also help to prevent major pavement renovation or replacement costs. Professional power sweeping will remove even unseen abrasives from between the cracks.

Just a sampling of what we offer...

Emptying
trashcans and
replacing trash liners

Blowing
out curb corners,
entrances, dumpster enclosures
and loading dock bays

Power
blowing of
sidewalks; removing
and spraying for weeds and moss
on asphalt areas

State of the Art: Nite-Hawk Sweepers

We use Nite-Hawk Sweepers, offering the latest technology in pavement sweeping systems.

Nite-Hawk Sweepers are manufactured using a patented hydraulic design, thereby providing you with a sweeper unit which is:

- up to **four times quieter** than its competitors, which is paramount, since most of your sweeping will be done at night.
- environmentally safe.
- efficient, safe and less costly to operate and maintain.

Technology, efficiency, economy—Nite-Hawk Sweepers truly are **the strong, silent type**.
