First impressions – A clean lot will attract customers!

Proper maintenance is an important concern for the property owner or manager. Keeping parking areas and sidewalks litter-free, well-maintained and the aesthetically inviting are all key elements that attract tenants and their customers.

No interruptions to your business or your customers!

Sidewalk, loading docks and difficult-to-clean areas are cleaned with commercial power blowers. We also empty trash and hand-pick grassy areas and flower beds. One of our many missions is to deliver services that exceed customers' expectations for efficiency, effectiveness and adaptability. We place special importance on quality and the individual needs of each client. Whether the need is daily, weekly or monthly, Elite Sweeping can accommodate your needs.

- Shopping centers
- Parking garages
- Schools
- Malls
- Office complexes
- Special events

Industrial

Heavy duty sweeping

Construction cleanups, municipal and private street sweeping, and pavement reclamation sweeping are only a few applications our broom street sweepers service.

Power water flushing

Available where a dustless surface is required. Water at high pressure is applied to paved surfaces with Elite Sweeping's street flusher. Heavy dirt and debris are quickly removed and flushed away.

Elite Sweeping has a modern well-maintained fleet of vacuum sweepers. Litter, dirt, glass, cans and bottles are quickly vacuumed from paved areas for a safe, arid, litter-free parking area. Curb lines are cleaned with a truck-mounted curb broom. As always, litter and debris will be disposed of properly.

- Streets
- Highways
- Municipalities
- Industrial & commercial parks

Weather is no match for our heavy duty equipment!

We are tenacious when the weather takes a turn for the worse. On schedule or on call, our street sweeping system provides safer driving conditions and assist in avoiding serious weather-related complications.

Safety is our specialty. You can rely on our experts to adhere to strict courtesy guidelines, improving motorist comfort while handling tough driving conditions.

Our extensive fleet of top-line equipment is in excellent condition, ensuring trouble-free service. At the office, our staff monitors service and provides assistance to road service staff in the event of weather-related delays or increasing inclement weather. contact us by phone to discuss your seasonal requirements.

We welcome you to contact us for solutions that will fit your needs and budget.
