

The Ultimate Sweeping Solution: Power, Precision, and Sustainability Combined

1

Boosted Performance:

Front-mounted generator enhances power by 15%, delivering unmatched sweeping efficiency.

2

Powerful Dual Curb Brooms:

Dual 500-watt electric curb brooms ensure fast, effective sweeping in any environment.

3

Intuitive Controls:

Operate the entire hybrid system effortlessly from the cab with simple, user-friendly controls.

4

Robust Power Management:

Reliable and straightforward power distribution for optimal performance.

5

Electric Efficiency:

The powerful electric fan motor ensures superior debris collection and quiet operation.

6

Full-Shift Reliability:

Equipped with a 5-kWh Li-ion battery pack, providing all-day runtime for continuous power.

The NiteHawk Raptor Hybrid sets a new benchmark in urban sweeping—combining advanced technology, efficiency, and sustainability. With a 38% increase in overall efficiency, it's designed to keep your streets cleaner, quieter, and greener.
