NITEHAWK RAPTOR II

APPLICATION SPECIFIC DESIGN

HYDRAULICS: Revolutionary hydraulic power. The most fuel efficient and quiet way to sweep with power. 5-year warranty provides longevity and peace of mind.

FAN: Innovative recurved 8 blade design provides the most pick up power in its class. Tough enough to handle whatever comes its way.

HOPPER: Massive stainless steel 5-yard debris storage capacity hopper. Powder coated for maximum durability. No clog easy clean screen means no interrupted sweeping operations. Easy access doors for inspection and garbage bags.

CONTROLS: Bright state-of-the art HUD with sealed tactile control pad optimized for ease of use. 360° flexible RAM MOUNT location adjustment allows for custom ergonomics.

TOOL BOXES: 22 cubic feet of storage capacity. Easy access to blowers and tools. Accessible from driver and passenger side. Standard toolbox lights for added visibility.

The NiteHawk Raptor II is optimized for sweeping in a variety of locations and is an invaluable member of any contractor fleet.
